COPY-READY ANIMATION PROMPT

4.8s, vertical 9:16, original flat hand-inked 2D title animation. Use the same ginger, freckled Finch face and petrol-teal detective coat throughout. Begin on the new single blackened-bronze/copper lens; the detective walks toward it and visibly steps through its glass. Camera crosses the optical plane into clean graphic 2D space; he turns to camera. On a cut, show him holding that exact lens while FINCH types on as real clean typography. Natural new walking/turning poses, not a sliding cutout. Voice ONLY: “I’m Finch. Look closer.” No ambience, sound effects, music, narration outside that line, extra text or subtitles.
